

SHAWBURY PARISH COUNCIL

Council Clerk - Jack Wilson

Telephone 01743 236810 email shawburypcclerk@talktalk.net

AREAS OF COUNCIL RESPONSIBILITY

Playing Field:

The Playing Field is an open space area leased by the Council from the Lichfield Diocese, which is available for use by local residents. Nobridge Ltd. of Cold Hatton are contracted by the Council to cut the grass and carry out general maintenance work on the site

The area houses a children's play area, has facilities for junior football and a recently constructed Outdoor Fitness Area.

There is a 'dog fouling' order covering the whole area.

Litter and refuse is regularly collected from the ground.

Applications from local charitable organisations for use of the field for fund raising activities are normally granted and no fee is charged. Those taking advantage of the facilities have to provide the Parish Clerk with a copy of the organisations 3rd party insurance cover and a risk assessment for the event and clear all waste material from the site at the end of the event.

It is not normal practice to allow Commercial Organisations access to the ground.

The main access to the ground is controlled by a locked gate and those using the area need to make prior arrangements with the Clerk to gain entry.

Car Park:

The Council leases and manages the car park adjacent to the playing field.

Car owners leave their cars on the park at their own risk.

On the insistence of the Council's Insurance Company, the use of the car park for unsupervised skateboarding, roller blading and associated activities is prohibited.

The Moat Area:

The Moat, an area adjacent to the playing field, is an Ancient Monument which is an English Heritage site. The Parish Council has a management agreement with them for maintaining the site and the surrounding area, which is leased from the Lichfield Diocese

Allotment:

The Council leases, from the Meres and Mosses Housing Association, an area of land adjacent to the playing field which is sufficient for one allotment. The allotment is sub-let and when it becomes vacant, applications for a new tenant are invited from interested parties. In the event of more than one applicant, Council Members make the necessary decision at a Council meeting

Burial Ground:

The Burial Ground, which is adjacent to the Churchyard, is owned and maintained by the Parish Council and administered by the Vicar and Parochial Church Council, who arrange the burials and collect the fees levied by the Council. The current fee stands at £60.00 per site (single grave £60.00, double grave 2x £30) The Vicar also maintains the Burials Register. Councillor Mrs. Frances Medley is the liaison Councillor and handles the administration and oversight of the burial ground for the Council

The area is enclosed by a fence and a beech hedge.

In the interests of better management, the Parish Council has produced guidelines for those wishing to inter a relative in the Burial Ground. These can be obtained from the Vicar or the Parish Clerk.

Extended Area of the Glebe:

The Council leases the area of the Glebe which lies between the playing field and the River Roden. It is being developed as a Countryside Park area. Pathways have been constructed on the site and seating and picnic tables have been put in place. Bird nesting boxes have been put in place and wild flower areas are being planted.

Open Space Area:

The Open Space area is situated in Bridgeway, Shawbury and is an area of land donated to the Parish Council under Section 10 of the Open Spaces Act 1906.

The Act states that the Parish Council shall, subject to any conditions, hold the open space in trust to allow the enjoyment of the land by the public as an open space and to maintain and keep it in a good and decent state.

The Council can enclose it or keep it enclosed with proper railings and gates and it may drain, level, turf, plant, add ornaments or lights, provide seats or otherwise improve it.

However any actions taken by the Council cannot be to an extent whereby it frustrates the use of the space for the purpose of recreation or exercise.

The Council maintains the land and the grass is cut regularly as part of the overall contract with Nobridge Ltd. It has erected fencing and a hedge to protect adjoining properties as the area can be used by young people for play activities.

Streetlights:

Most of the street lights alongside the A53 that runs through Shawbury Parish are owned and maintained by Shropshire Council. This also applies to the lights in White Lodge Park, The Glebelands, Mytton Estate and Wem Road and some in Church Street/Poynton Road.

Other street lighting on adopted roads or areas deemed to be public highways is the responsibility of the Parish Council. A maintenance contract is in place, currently held by EON of Stoke. Lights are regularly inspected.

Any concerns about malfunctioning lights should be reported to the Parish Clerk or Shropshire Council.

Bus Shelters:

The Council owns and maintains the two bus shelters which are sited on either side of Shawbury alongside the A53. Both shelters have been re-painted this year.

Village Seats:

The Council owns and maintains eight seats set at various locations around the Parish. Council Members continually review the provision and consider the purchase of additional seats for new sites if requested by residents.

Children's Play Areas:

1. Millbrook.

This play area was developed as part of two housing developments which have taken place in the area and on completion ownership of the play area was transferred to the Council. This area is suitable for supervised children under the age of eight years. This area is not suitable for ball games and parents and carers are urged to ask their children to respect this.

General maintenance of the site and grass cutting is carried out by Mr. Richard Bailey, who also does a weekly check of the equipment and any concerns about the area should be reported to Mr. Bailey or to the Parish Clerk. All the equipment is safety checked annually by RoSPA.

2. The Playing Field.

As a result of a tremendous effort by a dedicated team of volunteers who formed a Youth Action Group, sufficient funds were raised to provide a state of the art play area for young children, including a 'kick wall' for the older ones. Ownership was transferred to the Parish Council which has responsibility for the insurance and maintenance of the site.

Maintenance of the site is carried out by Mr. Richard Bailey who carries out inspections of the site each week. A full annual safety check is carried out by RoSPA.

3. Cycle Dirt Track

Situated at the rear of the Glebelands and adjacent to the playing field, this area affords children of all ages the opportunity to use their cycles in a safe and interesting environment. The site is overseen and maintained by Mr. Richard Bailey and inspected annually by RoSPA.

Outdoor Fitness Area:

An excellent fitness area, comprising eleven varied items of equipment suitable for anyone over the age of ten, has been constructed on the edge of the playing field opposite the Village Hall.

Funded in the main by grant aid, the site will be managed and inspected by the Council with an annual full inspection arranged and carried out during the summer months.

CCTV Camera and recording equipment:

The Council owns a CCTV camera which is situated on a lamp post in the Council car park. The recording equipment is located in a locked cabinet in the Village Hall for which the Council pays a nominal rent. The system is managed for the Council by Shropshire Council, whose qualified and registered staff and the police are the people able to access any recordings.

Checks that the equipment is in working order are carried out by Councillors Frances Medley and Dave Roberts.

Maintenance of the camera and equipment is financed by a grant from West Mercia Police.
