

**DRAFT MINUTES OF THE MEETING OF SHAWBURY PARISH COUNCIL HELD ONLINE  
ON TUESDAY 9th. FEBRUARY 2021 at 7.00pm.**

---

The Chairman welcomed Group Captain Wadlow, the recently appointed Commanding Officer at RAF Shawbury, who stated that he was pleased to meet up with Council Members although he would have preferred it to be in person and not online because of the current regulations.

He indicated that he was delighted to be back at Shawbury having last been in service here in 1999 and had happy memories of the Base and Shropshire in general and was looking forward to showing his wife and family around the County when the regulations permitted it. He had been at the Base now for several months, having undertaken a refresher course before taking up his post on December 14<sup>th</sup>. and his work since then had been dominated by dealing with Covid and the latest lockdown. It had been decided that it was necessary to keep the training programmes running as they could not stop for three months or longer but strict controls were being observed and where possible staff were working from home.

He commented on a number of projects that were underway, details of which had already been made public. One of these was the Gliding programme which had only been operational for two weeks due to the current restrictions and when flying began again it would only take place on Sundays. He was pleased to report that construction of the new youth facility was underway and should be completed by late summer; when open there would be access to the facilities for up to 30% of non-military personnel. He then commented on some constraints on dog walking in and near married quarters which had increased considerably and like most areas was suffering from the actions of some irresponsible owners with incidents of dog fouling.

In conclusion he said that all the service personnel were looking forward to the easing of the current restrictions which would enable them to mix freely with the local population and become involved in the numerous organised projects that they supported.

On behalf of all the Members, the Chairman thanked him for attending and looked forward to him attending a normal meeting in the future.

Access2Trees have been contacted and are happy to accept responsibility for any work.

##### 4. Mole catching.

Shropshire Mole Catchers had been contracted for work in the Burial Ground where they trapped three moles. The basic fee is £70.00 for dealing with a defined area and trapping up to two moles, with a £10.00 fee for each additional mole removed.

The success of the volunteer scheme would be monitored and minor repair work carried out on a self-help basis when the need arises.

## 6. Drain clearance.

It was decided that this could be a 'self-help' project.

### (h) Highways

#### 1. A53 Roundabout:

The Chairman and Councillor A. Brown reported that they had held a site meeting with Mr. Mark Wootton (Developing Highways Manager at Shropshire Council), when a range of issues were discussed about the suitability of the roundabout and the need to publish a revised TRO to accommodate the changes to the A53 speed limits. A detailed report outlining Mark's responses had been produced by Councillor Brown and circulated to Members indicating that he agreed with their concerns and would forward a report to the local traffic engineer and the development would not be approved until a future assessment was undertaken.

A later message from Shropshire Council indicated that the TRO for the speed limit changes on the A53 was being published.

#### 2. A53 resurfacing:

Jones agreed to contact appropriate representatives of both organisations to see if action could be undertaken to prevent a re-occurrence of the problem.

Burial Ground:

Councillor Mrs. J. Herbert raised concerns about some of the grave stones that appeared to be leaning and the state of some of the graves which were sinking. The Chairman reported that he and Councillor Ms. S.
